

## A long, thin, metallic component, likely a hinge or latch, with several screws and a small metal plate nearby.

- 
- Technical drawing of the 1000 Series hinge. The left view shows a side profile with a height of 27 mm and a hinge pin diameter of  $\varnothing 4$  mm. The right view shows a front perspective of the hinge mounted on a door and frame. Key dimensions include a 135° opening angle, a 37 mm mounting plate width, a 36 mm hinge pin offset, a 137-B+C offset, a minimum 125 mm door width, and a minimum 200 mm door height.

A diagram of a rectangular block with a light yellow fill. The horizontal dimension is labeled 'A' and the vertical dimension is labeled 'H'. A coordinate system is shown at the bottom right corner, with a horizontal arrow pointing right and a vertical arrow pointing up, both labeled with the letter 'x'.
